## EDUCATION

### Indian Institute of Information Technology, Pune

B.Tech in Computer Science and Engineering

CGPA: 7.98

2020 - 2024

## TECHNICAL SKILLS

**Courses** : DBMS, Data Structure and Algorithms, OOPS, Operating System  
**Databases** : MongoDB, PostgreSQL  
**Languages** : C++, SQL, Java, JavaScript, HTML, CSS  
**Dev Tools** : Git, ComfyUI  
**Frameworks and Libraries** : React.js, Express, Node.js, Spring Boot

## EXPERIENCE

### Java Backend Developer

HiWiPay Forex Transactions

Jan 2024 – present

- At Hiwipay, an early-stage FinTech startup, participate in the development and maintenance of robust backend systems in **Spring Boot Framework** and **PostgreSQL** for Database
- Collaborating seamlessly with colleagues, I utilize **BitBucket** and **Git** for version control, **Postman** for apis testing, **Jira** for efficient task management, and **Slack** for streamlined communication. Implemented RESTful APIs to support frontend features, ensuring efficient communication between server and client applications.

### Joint Digital Marketing Head

Entrepreneurship Cell of IIIT Pune

Dec 2021 – Jan 2023

- Achieved **0.5 Million** YouTube channel impressions for E-cell IIIT Pune in a year. Earned Google's "Fundamentals of Digital Marketing" certificate.[\(Link\)](#)
- Successfully strategized, executed, and promoted marketing campaigns for prominent college events such as Hackathon2k21, IdeaThon 2k22, and ESummit 2k22, managing sponsorship negotiations and orchestrating promotions across email and various social media platforms.

## PROJECTS

### E-Commerce APP

Features: Separate User and Admin Interfaces, Price Filtering

[Source Code](#)

- Technologies used :**Frontend- React js, Backend-Node.js , and for Database- MongoDB**
- Authentication and User Management:** Implemented user authentication with registration, login functionality, and a "Forgot Password" feature for user convenience. Additionally, empowered administrators with full CRUD capabilities for products and product categories, streamlining management and organization.

### Crypto-App

Features: API Integration, Pagination

[Source Code](#)

- Designed and developed a clean and modern website using **React, Chakra UI, and JavaScript**
- Fetching real-time Crypto-currency data from **APIs** Utilized **responsive design** to ensure compatibility

### Fruit Diseases Detection

Features: Data Pre-Processing, Transfer learning, Fine Tuning

- Automatic Fruit recognition system**, Input: fruit image and identifies that the fruit is fresh or rotten
- Achieved an accuracy rate of 98.3 percent through application of transfer learning and deep learning methodologies.
- Collaborated on a **Research paper** with a team. [Paper Link](#)

## ACHIVEMENTS AND CO-CURRICULAR EXPERIENCE

- Solved 550+ Question on Leetcode (**leading online coding platform**)
- 250+ questions on codeforces and CodeChef ( **premier online Competitive programming Platform**)
- 1st** - Hindi Speech Competition -Hindi Pakhwada
- Organized Eklavya 2023 Sports Event of IIIT Pune with the distinction of serving as the Head of Table Tennis
- IIT Bombay Mood-Indigo** - Mono act participants [Link](#)
- Operate a personal youtube channel dedicated to sharing my experiences [Link](#)
